Subject: Unwanted telecommunications

DEC 26 2002

ORIGINAL

Federal Communications Commission
Office of the Secretary

Why do we, as subscribers to telephone companies, ----- HAVE TO PAY MORE to stop constant - unwanted - annoying telemarketers. We pay our telephone bills because it is a personal SERVICE that we want and need - not at all because we want to provide a tool for sales by unwanted solicitors. It has become an invasion of our rights, as consumers, that we have no control over. PAY AND DEAL WITH IT -RIGHT? Deregulation is one thing but your agency and the government has known about this problem for years -- and it only gets worse -- and no one does anything about it. If the law needs changed, change it. I know I, join millions of US citizens who **feel** just like I do. Change the law if necessary - BUT DO SOMETHING George Harry
